1 CCCEP Number

The CCCEP Number has five parts:

- The first four digits are the program provider number,
- the second four digits are the year that the learning activity was submitted,
- The next three digits are an automatically generated sequential number.
- The next part of the number is a letter representing the delivery mode of the learning activity, and
- The final part of the number is a letter representing the primary target audience.

<th>Year</th>
<th>Sequential Number</th>

<th>Target Audience</th>

<td>C = Conference</td>
<td>P = Pharmacist</td>

<tr>
<td>L = Live</td>
<td>T = Pharmacy Technician</td>

<td>I = Independent Study</td>

</tr>
<tr>
<td>B = Blended</td>

</tr>
</tbody>
</table>

In the following example, the provider is provider 1092, it was submitted in 2009, it was the 356th learning activity submitted, it is a Live (L) learning activity, and the target audience is pharmacists (P).

Sample Number: 1092-2009-356-L-P

It is important to note that a learning activity intended to be delivered for both pharmacists and pharmacy technicians must be submitted twice – one with the target audience indicated as pharmacists and one with the target audience indicated as pharmacy technicians.

If the above example learning activity was also submitted for pharmacy technicians, the CCCEP number for pharmacy technicians would be:

Sample Number: 1092-2009-357-L-T
